Research Assistant Position

Graduate School of Business Administration
The Social Intelligence Lab
www.socialintelligencelab.org

Are you an experienced researcher with strong technical, organizational, and interpersonal skills? Do you thrive in team environments and possess English fluency?

The Social Intelligence Lab at the Bar-Ilan University Graduate School of Business is seeking a highly motivated and skilled individual to assist in the coordination and management of multiple research projects.

Required Skills:

- Research grant and budget management
- Meeting and travel coordination
- Record keeping and report writing
- Research skills: literature review, academic writing, and empirical research
- Data analysis: quantitative and qualitative analysis, data management

Preferred Qualifications:

- Experience in healthcare, including digital health technologies and apps
- Experience managing Protected Health Information (PHI)
- Knowledge of IRB processes
- Knowledge of HubSpot or similar CRM systems

Position Details:

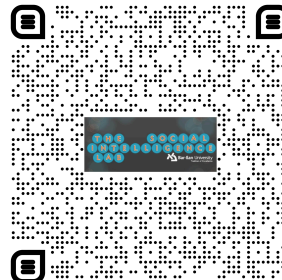

This part-time position involves a hybrid of remote (Zoom/WFH) work and occasional on-campus meetings. The role begins at 10 hours per week with the potential for increased hours.

To Apply:

Please email your CV to Prof. David Schwartz at david.schwartz@biu.ac.il.
